

# BFRC Open 50 metre Rifle Meeting 2022

## Please read carefully

Hopefully we will be able to have a meeting this year, but obviously it does depend on how the pandemic evolves.

This year we are reverting to 2 prone matches only again. This means that early entry is highly recommended as there may well be pressure on slots. Also, unfortunately there will be no air rifle competition as the range is not available.

Due to range orientation if it is at all sunny then side blinder restrictions will not apply for the first squad prone.

Currently we have to limit 50m range use to 35 firing points, leaving 5 for hospital bays. This gives a total of 105 slots again this year, so hopefully we will be able to accommodate everyone. We just made it the last time we were able to hold a meeting! I am currently liaising with the NSRA to confirm availability of equipment availability.

For IPC shooters, if there is very high demand for prone we can still accommodate you, as in previous years, with you shooting separately when the EM1 and 2 finals are running. If there are enough of you we can run a final for you as well.

**In previous years we have tried to accommodate late entries for the prone matches but so many people have left it late to enter it has become very difficult to organise so don't be surprised if your entry is returned or refused if it is near the deadline!**

Notes: Prone rifle is **not** an aggregate competition. There will be a separate prize list for each match.

There are new ISSF rules being proposed, but not yet finalised, so we are running this competition under the rules valid to the end of 2021. There will be no equipment control, but obvious breaches will be noted and may mean you are not able to compete. Please make every effort to comply with the ISSF rules. Ask if you are unsure about anything.

ISSF timings will apply to all events.

Equipment should comply with ISSF rules.

Exception on side blinders for squad 1 only
